PERSONAL SKILLS

- Responsible and results-oriented
- Fast learner, adaptable to new technologies
- Effective collaboration in agile and cross-functional teams
- Clear and assertive communication
- Focused on code quality and continuous improvement
- Analytical mindset and strong problem-solving skills

LANGUAGES

- Spanish — Native
- Catalan — Native
- English — B2
- French — A2

CERTIFICATIONS

- IBM – Data Analysis Using Python
- Big School – Development with AI

TECH STACK

- **Backend:** PHP (Symfony, Yii2), Python (FastAPI), Node.js(basic), Java (Spring Boot – basic)
- **Frontend:** Vue.js, Next.js, JavaScript, HTML, CSS
- **Databases:** PostgreSQL, MariaDB
- **DevOps & Tools:** Docker, Git, GitLab CI/CD, Bash
- **Practices:** REST APIs, TDD, OAuth2, JWT, CI/CD

PROFESSIONAL PROFILE

Backend-focused Full Stack Engineer with experience building and maintaining production systems in product-driven environments. Strong background in backend development, API design, relational databases, and software quality practices such as TDD and CI/CD. Motivated by clean architecture, continuous improvement, and learning from strong engineering teams.

WORK EXPERIENCE

Full Stack Engineer
Sept 2024 – Present

EXTE

- Design and maintain backend services with Symfony/Yii2 for business-critical DOOH advertising workflows.
- Build and consume REST APIs with secure auth (OAuth2/JWT).
- Integrate external platforms (Broadsign, VIOOH, Hivestack) with automated data synchronization.
- Apply TDD, automated testing, and GitLab CI/CD to ensure reliability and quality.
- Built a backend microservice for budget-based campaign planning, applying business formulas to allocate spend and compute key planning metrics.
- Deliver internal tools and dashboards with Vue.js, maintaining libraries/dependencies and version tags, and improving performance via code reviews and refactoring.

Aluminum Carpenter
Jun 2020 - Sept 2023

MAFAC VALLÉS, SLL

- Fabrication and assembly of aluminum structures, developing precision, teamwork, and responsibility in real-world environments.

HIGHLIGHTED PROJECTS

DOOH Inventory Planner (Bachelor Thesis)

Vue · Symfony · MariaDB · OAuth2 · Mapbox

- Designed and implemented a full stack application to automate DOOH campaign planning.
- Built backend services to filter inventory by geolocation and points of interest, reducing manual planning from hours to minutes.
- Implemented authentication, API integrations, and data persistence for real-world production use.

Personal Portfolio

Next.js · TypeScript · Tailwind CSS

- Multilingual personal website showcasing projects, experience, and technical profile.
- Deployed on Vercel with focus on performance and clean UI.

Production Calculator App

Next.js · TypeScript · JWT

- Developed a business tool to automate material calculations, replacing a slow and error-prone manual process.

EDUCATION

Computer Engineering
2021 – 2025

Autonomous University of Barcelona

- Degree in Computer Engineering, specialization in Information Technology.
  - Final Grade: 8.95 / 10

Baccalaureate
2019 - 2021

Joan Oliver Institute

- Technological Baccalaureate
  - Final Grade: 9.15 / 10
