COMPETENCIAS PERSONALES

- Responsible and results-oriented
- Fast learner, adaptable to new technologies
- Effective collaboration in agile and cross-functional teams
- Clear and assertive communication
- Focused on code quality and continuous improvement
- Analytical mindset and strong problem-solving skills

LANGUAGES

- Spanish — Native
- Catalan — Native
- English — B2
- French — A2

CERTIFICATIONS

- IBM – Data Analysis Using Python
- Big School – Development with AI

TECH STACK

- **Frontend:** HTML, CSS, JavaScript, Vue, Flutter, Next.js
- **Backend:** PHP, Symfony, Yii2, Node.js, Java, Python
- **DevOps:** Docker, Git, Bash
- **Databases & APIs:** SQL, REST, Mapbox

PROFESSIONAL PROFILE

Computer Engineer specialized in Full Stack Development, with over one year of experience building scalable, secure, and user-centered web applications using modern frameworks such as Symfony and Vue, and applying software engineering practices like CI/CD, TDD, and process automation.
Passionate about innovation and continuous learning, I design software that transforms complex workflows into simple, efficient, and high-impact solutions.

WORK EXPERIENCE

Full Stack Engineer — *Sept 2024 – Present*

EXTE

- Full-stack development using Vue, Symfony, and Yii2 with MySQL/MariaDB.
- Implementation of OAuth2/JWT authentication and CI/CD pipelines (GitLab).
- Process automation with cron jobs and TDD workflows.
- Integration of DOOH data (Broadsign, VIOOH, Hivestack) with real-time synchronization.
- Continuous improvement through code reviews, documentation, and performance optimization.

Aluminum Carpenter — *Jun 2020 - Sept 2023*

MAFAC VALLÉS, SLL

- Fabrication and assembly of aluminum structures, developing precision, teamwork, and responsibility in real-world environments.

HIGHLIGHTED PROJECTS

DOOH Inventory Planner — Vue · Symfony · MariaDB · OAuth2 · Mapbox
Application developed at EXTE as a Final Degree Project, automating DOOH campaign planning through geographic filtering and point-of-interest selection, reducing manual workflows from hours to minutes.

Cutting Calculator — Next.js · TypeScript · Tailwind CSS · JWT
Application developed for MAFAC to automate the calculation of required bars based on cutting measurements, automating a slow and error-prone manual process.

Personal Portfolio — Next.js · TypeScript · Tailwind CSS
Multilingual website to showcase projects, experience, and skills, deployed on Vercel.

Other projects: Pokémon Simulation · Flutter App · Chess Game (C++) · E-commerce (PHP).

EDUCATION

Computer Engineering — *2021 – 2025*

Autonomous University of Barcelona

- Degree in Computer Engineering, specialization in Information Technology.

Baccalaureate — *2019 - 2021*

Joan Oliver Institute

- Technological Baccalaureate
